Recording number of birds or presence	365	48
Recording breeding	8	1

Warnings and Notes

Incidental datasheets (datasheets not reporting all species seen) are included.

Data for rare species may include records not reviewed by the Rarities Panel.

Data collected for the ACT Atlas (1 Sep 1986 to 31 Aug 1989 - Year ending 1987-1990) is included. The number of birds seen was not recorded for these data.

This does not impact on the reporting rate data presented here.

Sourced from General Survey data used for the Annual Bird Report 2013. Some alterations to the data made by authors of the ABR may not be reflected in this report.
